Natural Skin Care Purity, Performance, Perfection

Balanced Essentials is proud to announce the launch of its new natural skin care range.

Balanced Essentials believe in a balanced approach to skin care that acknowledges the total concept of mind, body and spirit. A simple, easy routine, perfect for all skin types, that combines the natural properties of pure plant extracts, the latest in scientific research, and tried and true methods that have been used for centuries. Ancient Egyptians, Greeks and Romans used essential oils to conserve their skin's moisture and enhance the appearance of beauty.

Balanced Essentials Natural Skin Care Products contain only the highest quality pure

essential oils and organic plant extracts which help beautify the complexion and soften the visible signs of ageing, leaving healthy, radiant skin.

A revolutionary approach is the addition of Colloidal Pure Gold & Silver Mineral Water used since ancient times to help encourage a more youthful and healthy appearance.

A rose quartz crystal has been added to ensure the vibrational balance of the product and to energise the properties of these natural ingredients.

This combines to make our product a leader and pioneer in a new direction of natural skin care.

BE SPORT Massage Blend endorsed by Parramatta Rugby League players & physiotherapist

Early in 1999 Balanced Essentials was approached by Dallas Weston from the Parramatta Rugby League Team to supply the team with a quality massage oil that would both benefit the players emotionally and act as a pre and post game treatment for muscle strains and bruising.

The team trialled BE Sport throughout the season and many of the team members and physiotherapists have endorsed the product as being both uplifting and heightening awareness while at the same time helping to prevent injury. In fact **Parramatta Rugby League team have had the least number of injuries in a National Rugby League team this year** - a fact the players put down to using BE Sport.

BE Sport is now available in 100mL size from Balanced Essentials.

For sporting clubs who wish to purchase BE Sport in bulk the product is available in 1 Litre pump packs at special prices.
