TWO WORLD CLASS EXPERTS

Dr Sarah Lantz (PhD) & Dr Edward Kachab (PhD)

*Authors of the bestselling book – Chemical FREE Kids
and Founders of the Chemical FREE Kids National
Toxins Awareness Program*

Dr Sarah Lantz (PhD) and Dr Edward Kachab (PhD) Will Reveal the Hidden Dangers of Chemical Exposure and . . .

- How chemicals found in your children's food, are hindering children's development, lowering IQ scores and triggering attention and behavior disorders.
- Why Australia continues to use chemicals that are banned or restricted in other countries and the rising health impacts on your children's long term health.
- Why babies are being born pre-polluted, chemicals they are born with, and what makes kids particularly susceptible to degenerative diseases.
- What's really on your dinner table and in your children's medication – vital information EVERY PARENT should know!
- Find out what the experts are saying about the hidden cause of obesity and diabetes in our young people today AND why Australia also has the fastest growing obesity rates in the world, and is the only country where childhood obesity is increasing faster than that of adults.
- How you can begin to implement health changes and practices for you and your children that help cleanse the body of chemicals.
- Solutions and strategies for raising healthy children (and adults) in a toxic world.

If you want to know **How To Raise Healthy Children In A Toxic World** you simply can't afford to miss this once-in-a-lifetime opportunity to learn from and be inspired by two of the World's Leading Experts on Chemicals and the effects on children's health today.
